

Project HALT

BASIC INFORMATION

Course Title: Project HALT

Course Duration: 1 Day

Audience: PMO Staff, Executives, Department Managers, Program Managers

PDU: 7

Prerequisites: CA-PMM Boot Camp for Project Managers or CA-PMM Express Training for Project Managers or equivalent

WORKSHOP DESCRIPTION

This one day workshop focuses on processes used to identify projects that are not performing to expectations, processes used to determine if recovery is possible and/or warranted, and processes used to close projects that are no longer viable.

GOALS

- To provide a method for analyzing an unhealthy project to determine if it can be recovered or should be closed
- To provide a roadmap for the activities required to close an unhealthy project

OBJECTIVES

Each attendee will:

- Ask the right questions to determine the health of a project
- Determine if the project is a candidate for recovery or closure
- Plan a project recovery
- Plan a project closure
