

Use this form to report the Power Usage Effectiveness (PUE) for all state data centers over 1,000 square feet.

State Entity Information	
State Entity refers to any entity within the Executive Branch that is under the direct authority of the Governor including, but not limited to, all agencies, departments, boards, bureaus, commissions, councils, institutions, and offices.	
State Entity Name:	
Contact Name:	
Contact Telephone Number:	
Contact Email Address:	
Data Center Address:	
UPS Output (measured in kW):	
Computer Room Input (measured in kW):	
PUE (Computer Room Input/UPS Output):	
*DCiE (UPS Output/Computer Room Input x 100%):	
Explain exceptions or estimation methods if the exact UPS output number or mechanical input was estimated:	
Explain efforts completed in the past fiscal year which improved PUE:	
Explain energy efficient efforts planned which will improve PUE when implemented:	

*DCiE (data center infrastructure efficiency) is a reciprocal of PUE and is sometimes used as an alternate metric when reporting data center energy efficiency.

By signing this document, the signatory confirms that the state entity accurately measured, and is correctly reporting, the Power Usage Effectiveness of their data center.
